

Compact Wall Sconces

NEW! Compact Geometric Wall Sconces - Pulse Start and CFL

Hubbell Outdoor Lighting introduces compact architectural geometric wall sconces in three design styles! Specify for lower mounting height applications or use to compliment the larger geometric wall sconce family. These stylish wall sconces feature energy-efficient pulse start and compact fluorescent systems to solve your lighting needs.

THREE DESIGN STYLES

TRPC
Trapezoid

RDIC
Radius

QSPC
Quarter Sphere

Key Features & Benefits

- Full cut-off, dark sky, neighbor friendly
- Compliments larger Hubbell Outdoor Geometric wall sconce series
- Provides excellent illumination and uniformity
- Durable, die cast aluminum construction
- Micro prism glass lens reduces glare
- 70w Pulse Start Metal Halide and 42w Compact Fluorescent systems
- Bronze and Platinum powder coat standard finishes
- RDIC features an internal removable upper panel that allows units to be converted in the field to up/down distribution if desired for building accent
- CFL has BOC Egress option (BOC unit in Bronze only)
- CFL lamp color temperature 3500K
- HID lamps are medium base
- Lamps included
- Quick mount adapter for easy installation on recessed J-boxes
- UL1598 listed for use in wet locations
