Applications and Features

Euroluxe® is used for both outdoor and indoor applications in nominal 25°C max. ambient temperatures. Fixture can be wall or ceiling mounted in locations such as entry, low canopy, stairwell, corridors, pedestrian tunnels and single story facade accent areas. Euroluxe® features three styles: glass face, glass with guard or glass with shield. Fixture is available in Dark Bronze or White finishes for blending or accenting structures.

Borosilicate Glass

Aluminum Shield

Aluminum Gaurd
