

RU Series

Recessed Uplight

Recessed uplight used for accent lighting of building facades, columns, ground mount signs, and landscape trees. Recessed units provide low profile for "hidden" light source and easier landscape maintenance such as mowing, weed eating, etc.

- Non-metallic housing and lens frame
- Bronze finish
- Tempered, impact-resistant glass lens
- Stainless steel hardware

- Pulse Start Metal Halide systems complete with clear, medium base lamp
- 100w or 70w systems with Quad-Tap® ballastry (120, 208, 240, 277V)
- Listed to UL1598 for use in wet locations, ground mount/burial locations away from normal pedestrian path
- Accessory guards and wall wash/shield reflector available
