

LARAMIE® LFP SERIES

PAR MH FLOOD

Cat. #		Approvals
Job	Type	

APPLICATIONS

- Signs, facades, small area illumination, flag poles and landscape accent.

SPECIFICATIONS

- One or two adjustable sockets that allow independent aiming of the lamp.
- Driven by electronic metal halide ballast(s) and using powerful compact sources, LFP can accent targets 30 to 50 feet away with either uniform flood or concentrated spot beams.
- A single two-lamp, 78 watt unit with spot lamps can be aimed to two adjacent flagpoles from a central location.
- The new LFP-JB cast-wiring box can be mounted to existing flagpoles by a simple ingenious method that allows installation from 6 to 12 feet, depending on concern for vandalism.
- LFS-SPC polycarbonate shield protects the tempered glass lens and for deep shielding, the LFS-GS black glare shield surrounds the lens for the ultimate in spill control.

A	B	C	D	E
10 1/4"	6 1/2"	8"	4"	2 1/2"
260 mm	165 mm	203 mm	102 mm	63.5 mm

LISTINGS

- CSA certified to UL 1598, suitable for use in wet locations.
